USING A SUB SYSTEM HIGHLY RECOMMENDED

«I really want to thank the Welders Hi-Fi & all the crew : your precious help and collaboration allows this project to emerge.
Big thanks to my family, my boyfriend, my friends and all the persons who have crossed my path during the last 5 years. Each of you has participated in its own way to the birth of this album. A huge thanks to all the masses : if there's no one to listen, music's no more than silence. Full love & light to all of you !»
